

These three documents comprise the results of two years' work by the Tysoe Heritage Research Group, involving recording all memorial stones found within Tysoe. The work was split into three main sites:

- St Mary's Churchyard
- St Mary's Church Interior
- Cemetery, Sandpits Road

The information on the field sheets was then transferred to a spreadsheet, from which these documents were generated. Note that these are just the first draft; more work needs to be done to tidy up the data.

The three documents are:

- Memorial index.pdf

Lists all names documented as part of the survey, sorted by surname. Note there may be variations in spelling. The final column identifies the relevant memorial number. Use this number to look up the memorial details in Memorials.pdf and Memorial location plans.pdf.

- Memorials.pdf

Documents each memorial's details, in numeric order.

- Memorial location plans.pdf

Contains plans of each of the three sites, showing the location of the memorial numbers.

Note, if you don't have "Search" as an option in your pdf viewer, press keys Ctrl and F together to search the content of any of the documents.
